BRUNSWICK, Administrator. 165-1y Las Vegas, N. M., Feb. 7th, 1880.

NEWS BY TELEGRAPH

A Marriage by Telegraph—The Minister at Las Animas, the Parties at La Junta.

The Noise About the Poncas Claimed to be a Union Pacific "Scheme."

Garfield Speaks to Some Ohio Men With the True Ring—No Ohio Men in the Cabinet.

Seven Parties in One House Burned to Death—Small Pox in New York and Dakota.

House.
Washington, Feb. 2.—A resolution was adopted asking the Secretary of the Interior for any papers in his office within eighteen months making complaints or charges against any Indian agent or officer in Indian service or what steps have been taken to prosecute them.

The post route bill was referred from the committee on postoffices and passed.
Knott of the judiciary committee submitted a report touching the right of the Senate to originate appropriation bills. Ordered printed and recommended.

Townsend, of Ohio, introduced a bill which was referred to the committee on Ways and Means in regard to the duties on manufacturers' iron, &c.

A Railroad Scheme.

Chicago, Feb. 2.—The Tribune's Washington special says: A gentleman who has closely followed the Ponca question says the entire agitation is a railroad scheme to obtain possession of the Indian reservation west of the Mississippi. Tibbles is no pure philanthropist. At the time he took the first step in the matter a prominent counsel and other officials of the Union Pacific road stood in the background directing his movements. At this time the wrongs of the Poncas had long before been fully set forth to Congress by the Secretary of the Interior but no attention was paid to his requests for authority to reimburse these Indians for damages done their property. The first step of the Union Pacific railroad people was to sue out a writ of habeas corpus for some Poncas who had been arrested for being off their reservation and obtained a decision of the subordinate court that the Indians had a right to leave their reservation. As a second step the company instituted a suit to test the title of the Poncas to their reservation. It is easily seen if these cases could be pressed to a final decision by the Supreme Court and favorable action be obtained upon each reservation the system of the Government would be broken up and the rights of the Indians to dispose of their lands be established. From these decisions of the courts to a full possession of the best portion of the immense tracts of Indian lands would be a short road for a powerful railroad corporation.

A Wronged Woman.

Chicago, February 2.—The Times Grand Rapids special says. Last spring Wm. Addis, a lumber merchant of considerable wealth procured a divorce from his wife, without publicity until the decree had been granted when the fact became public that Mrs. Addis had admitted in court that she had committed adultery with Heman Blodget and others. As she was a mother with four daughters and one son, some of them grown up and had always borne an excellent character and was in poor health and these men were below her socially the press and public hooted the divorce proceeding and demanded an investigation from which it appeared that Addis had intimidated or in some way induced her to falsely testify to her own shame, making settlement of property on her, and that she was made to believe he had men who would swear adultery on her so he could get a divorce if she resisted and leave her penniless. She then boldly and publicly denied her guilt and the court annulled the decree. To-day she began suit for a divorce against him alleging extreme

cruelty in this and other matters. Their four daughters were present in the court. One is a Mrs. White, of San Francisco, and another Mrs. Stevenson from Leadville. Both sympathize with their mother as do the younger children. Several ladies of the best society appear with her as friends and numerous and able counsel are engaged on both sides.

Small Pox.

Sioux City, Ia., February 2.—For several weeks the small pox has been raging with great fatality in Jefferson Union, Dakota, a settlement about twelve miles from here. Strict quarantine has been enforced and the disease has not spread beyond though it has played sad havoc there. The settlement consists mostly of Canadian-French and when the disease first broke out they, in their ignorance, were unmindful of its contagion and funerals were held public and attended by the whole population as the settlers are really of a kin. In this way the disease spread rapidly and neighboring towns were quarantined. The trains don't stop and the settlers are getting restless and threaten to break the quarantine. There have been ninety cases, thirty-two fatal and only six recovered. The scourge is now growing less virulent. Whole families have been swept away by the disease and in many instances the dead have been left unburied for days through fear or inability to obtain help to inter them. At present it is confined within its present bounds. No cases have developed in this city, though isolated cases are reported in several towns in Dakota. The disease is said to be black small pox and is thought to have been communicated by a party of Russian Men outites who passed through this city to Yankton several weeks ago.

Mining Interests of Idaho.

New York, Feb. 2.—Judge E. Sanders of Idaho, delivered a lecture last night before the Bullion Club on the mining interests of that territory. He stated that the mineral resources of Idaho were comparatively unknown and that some of the richest veins had been discovered since last June. The mining belt was over two hundred miles wide and extended from the southern part of Idaho northward through Montana into the British possessions. In the western part he says gold is abundant but that the richest silver mines are situated in the eastern part of the territory. The difficulty of transportation, owing to the lack of railroads and the lack of capital, were the only obstacles to the speedy development of the wealth of the territory.

Married by Telegraph.

Pueblo, Col., Feb. 2.—The Chief-tain of tomorrow will contain the following: "Getting married by telegraph is the way they do it now. Yesterday Rev. S. A. Wilson, of West Las Animas joined Levi C. Gil lin of Galesburg, Illinois, and Miss Ida Wickham of La Junta, Colorado, in the holy bonds of wedlock. The couple were in the telegraph office of the Santa Fe company at La Junta with witnesses and the minister was at West Las Animas in the telegraph office. The questions and answers were telegraphed over the wires and all appeared to be as happy as though it had been done in the usual way.

The Refunding Bill.

New York, Feb. 2.—The Commercial says: In reference to the refunding bill at Washington we have no reason to believe that the proposition will be made from this city to extend three hundred million 5 per cents of '81 for ten years at 3 per cent without the cost for printing the bonds or commission for the exchange of the bond. This will be wanted by the new administration of the treasury after the 4th of March. There is or will be money in the treasury to pay off the remainder of the bonds of '81 bearing 5 or 6 per cent.

Quiet at Pueblo.

Pueblo, Col., Feb. 2.—The city has been very quiet all day and this evening. Barring the arrest of one or two inebriates nothing has occurred to disturb the peace. The preliminary examination of Bilby did not occur today and has been postponed until Monday next when Judge Hart will hear the case. The county jail is still strongly guarded although no further trouble is anticipated.

The mayor has appointed E. A. Fish chief of police. Fish is a constable of this county, having been elected to two terms without opposition.

Opening of a Mining Exchange.

Philadelphia, Feb. 2.—The National Mining Exchange, which was inaugurated yesterday opens for business to-day. The Telegraph says: This exchange was formed to secure responsibility and confidence. The membership is limited to one hundred. The first thirty were selected from the old mining exchange, the succeeding twenty paid an initiation fee of \$500. The initiation fee for the next twenty-five will be \$750 and for the last twenty-five \$1,000.

The Cold Weather.

New York, Feb. 1.—The severity of weather in this vicinity is revealed by paragraphs like the following: "The second crop of ice was eighteen inches thick and free from snow and is now being cut from the Connecticut river opposite Hartford. The third crop of ice is nine inches thick and the great mass of ice covering the river has an average thickness of thirty inches. Six inches of ice is shown which has been formed in three days."

Dangerous Coasting.

Colleffe Point, L.I., Feb. 2.—Charles Bangert's two daughters and three other young women were coasting down a hill when the sled ran off the wharf and broke through the ice in Fishing Bay. They were all rescued, but it is thought that two of the women will die from the shock and cold. Shortly after another sled of coasters ran off and almost perished but aid being close at hand they were all rescued.

Greenbackers Conference.

Chicago, Feb. 2.—The Inter-Ocean's Washington special says the greenbackers will hold a conference here this month and will probably have an executive committee meeting in St. Louis after the inauguration. The managers claim they are arranging for a congressional canvass with a view of electing 75 members in '82 upon the anti-monopoly issue. Next summer their speeches will be out.

The True Ring.

Chicago, Feb. 2.—The Tribune's Cincinnati special says: "Garfield says to the delegation pressing Foster for a cabinet position: 'Now don't you think Ohio has already had too many appointments and honors? Don't you think the most graceful thing an Ohio president can do is to leave Ohio out of the cabinet altogether.'"

Leaving on a Train.

San Francisco, Feb. 2.—An Austin, Nevada special says that the sheriff of Lander county has levied on three freight and one passenger trains at Battle mountain to satisfy a judgment of \$24,000 for delinquent taxes due from the Central Pacific Co. As fast as trains come in they are tied up by the sheriff.

Seven Persons Burned to Death.

Spring Lick, Ky., February 2.—Wiley Embury, an old and respected farmer of Butler county, and six children were burned to death Friday night, the wife and eldest daughter escaping. The children slept up stairs where the fire broke out and Embury tried to save them.

Closing the Saloons.

Concord, Feb. 2.—A resolution has been introduced by the city government instructing the mayor to close all the liquor saloons in the city. It will not be acted on until the last of the month when it will probably pass. It looks as if the liquor crusade will be inaugurated again.

Murder.

Hickory Ridge, Ky., Feb. 2.—Wm McKinnie was murdered here on Monday last by Columbus Cass, who knocked him down with an axe and beat his head to a jelly. Both parties are prominent Methodists but an old feud had existed between them for years.

Pedestriennes.

San Francisco, February 2.—The women's walking match closed last night. The score was as follows: Howard, 356; LaCapelle, 440; Young, 327; Sherman, 228. The latter was off the track more than half of the time on account of illness.

Thirty-Fifth Ballot.

Harrisburg, Pa., Feb. 2.—On the thirty-fifth ballot Wallace received 82 votes; Oliver, 80; Grow, 54. Adjourned.

Another Elevator.

Chicago, Feb. 2.—The city will soon have another elevator on the Central Pacific to hold a million bushels.

How is This?

Dennison, Texas, Feb. 2.—Percy, California Joe and Barrera the murderers of Col. Potter, were taken from the jail by masked men and hanged. The sheriff expects to capture Leibor, the principal.

Small Pox Increasing.

New York, Feb. 2.—Small pox is increasing at an alarming rate and the Board of Health is looking toward checking it and treating the infection cases.

Burned to Death.

Boston, Feb. 2.—Johanna Callahan and son, William, were burned to death in their dwelling at Dorchester to-day.
